

Experience

Software Developer Moneo

December 2018 - Present Remote

As a backend developer, I started working on customer projects. I work as a backend developer in the Kommunity project. I helped Vue.js work for a certain period. I also take an active role in the Kitapyurdu project.

Technologies: Laravel, OpenCart, Vue.js, React Native, Docker

Software Developer

Netinternet Bilişim Teknolojileri AŞ

July 2017 - September 2018 Denizli

I worked on developing data center customer panels. I usually did a backend enhancement using Laravel. For a short time I helped improve it using the GoLang BeeGo framework.

Technologies: GoLang, Laravel, Vue.js, Node.js, Docker, Dokku

Intern Netinternet Bilişim Teknolojileri AŞ

June 2017 - July 2017 Denizli

Netinternet is a hosting service provider. I started here as an intern PHP developer. I am interested in Stripe integration and management panel improvements.

Technologies: Laravel, jQuery

Software Developer Publins

January 2017 - May 2017 Denizli

Publins is a discount and tracking system for everyone, where local brands can advertise. I took over the system written here in Ruby On Rails. I have implemented the requested improvements. I played an active role in the development of the front-end and backend.

Technologies: Ruby on Rails, jQuery

Education

Computer Engineering

Pamukkale University 2014 - 2019

Projects

Try Not To Smile Yanny Game

9 August 2018 <https://yanny.fun>

The player opens his camera, tries to not laugh at the funny videos.

Technologies: React-native, firebase (firebase-storage-functions-auth-messaging-ads), MobX

Stalk your boss timeline on Github

Open Source

5 October 2018

<https://github.com/barisesen/github-timeline>

The application allows you to see other users' GitHub streams. In this way, you can see the activities of the people followed by your bosses and friends.

Technologies: JQuery, Github public api

Awards

Gider.xyz

GDG Denizli Mobile Hackathon Winner

15 May 2016

<https://prezi.com/ughl1fw4khkc/giderxyz/>

Gider.xyz is a mobile application that helps individuals and groups keep their income and expenses under control.

Technologies: Symfony 3, Apache Cordova, JQuery

Volunteering

Organizer Paü Siber

18 September 2017 - June 2019

It is a student community that organizes trainings on cyber security and secure code development. I worked as an organizer and trainer.
